## Frequently asked questions

---

### What are the setup costs?

There are no hidden activation, setup, delivery, installation or cancellation fees. You only pay for your chosen plan.

### What equipment is required?

nbn™ install a FREE satellite dish between 80cm or 120cm in diameter. Dishes are mounted to the roof or the side of your premises.

### Why is there a Fair Use Policy?

nbn™ has a Fair Use Policy to ensure fair access to the Sky Muster™ service and to help avoid any network congestion.

### How long does an installation take?

A typical installation is completed within one week. Some very remote locations can take up to three weeks.

### How fast is nbn™ Sky Muster?

The Sky Muster™ service is designed to deliver speeds of up to 25/5 Mbps. Speeds of up to 12/1 Mbps are also available for \$5 less per month.

### When can i use my off peak data?

Off peak data can be used between 1AM - 7AM in your local time zone. To better utilize your off peak data, we recommend using PlayOn Desktop.
